

Demonstration of Proposed Features

Date	03 JULY 2026
Team ID	XXXXXX
Project Name	A Comprehensive Measure of Well-Being
Maximum marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

s.no	Feature Name	Description	Status	Demonstrated	Remarks
1	User Input Interface	Allows users to enter Life Expectancy, Mean Years of Schooling, Expected Years of Schooling, and GNI per Capita through a user-friendly web interface.	Implemented	Yes	Successfully accepts valid input data.
2	HDI Prediction Model	Predicts the Human Development Index category using a trained Machine Learning model.	Implemented	Yes	Accurate predictions generated based on input indicators
3	Data Visualization	Displays charts and graphs for HDI indicators and prediction analysis.	Implemented	Yes	Interactive visualizations improve data interpretation.
4	Flask Web Application	Integrates the frontend with the backend to process user requests and display prediction results.	Implemented	Yes	Successfully deployed and tested locally.
5	Model Saving & Loading	Saves the trained model using Joblib/Pickle and loads it during prediction.	Implemented	Yes	Enables fast prediction without retraining the model
6	Prediction Results Dashboard	Displays the predicted HDI category with insights and analysis for the selected input values.	Implemented	Yes	Provides clear and informative prediction results.

Feature implementation summary

Summary	Value
Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
